**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### **Claim Rejections - 35 USC § 102**

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-10, 16 and 17 are rejected under 35 U. S. C. 102(b) as being anticipated by Cormelius et al. (US Pat. 6,417,463, herein after Cormelius).

Regarding claims 1-10, Cormelius discloses a method comprising: providing a substrate having a first surface and a second surface, the first surface being adapted for mounting an electronic device thereon, the substrate including a grid of electrically conductive vias 112 extending from a region proximate the first surface to a region proximate the second surface, each via being one of a signal via (signal vias), a ground via 111 and a power via 117 (col. 7, lines 1-12); removing at least one of the vias to form a void between at least one ground via and at least one power via; the void comprises a loop around at least one via (fig. 2 and col. 4, lines 1-10) and connecting each of the at least one ground via proximate the void to one of the at least one power vias proximate the void with a capacitor 124/126/129 proximate the second surface of the substrate (col. 5, lines 2-23 and col. 7, lines 1-19).

Regarding claims 16 and 17, Cormelius discloses a capacitor 124/126 is disposed proximate the void when connected between the ground/power vias 102 (col. 7, lines 1-19).

### **Response to Arguments**

2. Applicant's arguments filed 12/12/05 have been fully considered but they are not persuasive.

3. In response to applicant's argument that "Cormelius does not teach removing at least one of the vias to form a void between at least one ground via and at least one power via". It should be noted that Cormelius teaches that "open spaces 108 may be formed by removing balls from an existing BGA or BGA design (depopulating a BGA)" (col. 4, lines 2-4) and "In the embodiment illustrated in FIG. 2, some vias 102 are removed from among balls 100" (col. 4, lines 5-8). Therefore, the rejection is persuasive.

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 2818

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
